School Hours:

7:45 a.m.-2:45 p.m.

English Language Arts

This month in ELA, our focus will be comparing and contrasting the point of view from which different stories are narrated, including the difference between first and third person narrations. Students will also be learning how an author uses reasons and evidence to explain points in a text. In writing, students will continue learning the mechanics of writing a powerful and well-supported opinion essay.

Accelerated reading is a very important part of your student's life here at school. Please continue to encourage them to read 30 minutes every night.

Math

In Math students will show what they know about division and solving word problems. We will also be learning about multiplying and comparing fraction. Parents multiplication and division are heavily used throughout 4th grade, so please help your child study their multiplication, division, addition, and subtraction math facts every night. This also helps with SMAD which happens every Thurs. 100 facts in 7 minutes!

Science

During the month of December student will be learning about and exploring Energy Transfer & Transformations, Heat Flow, Motion of Objects, and Experimenting with Forces. They will also participating in the Second Science Quarterly Assessment.

Social Studies/Writing

In writing, students will continue learning the mechanics of writing a powerful and well-supported opinion essay.

In Social Studies, students will learn about and be able to identify Florida's role in the Civil Rights movement. We are so proud of the hard work and effort that our students put forth every day!
