**School Hours:** 7:45 a.m.-2:45 p.m.

## English Language Arts

Students will be learning to sort items into sets or "Families". They will also be working on asking and answering questions about the story. they have read and showing evidence of their responses in the story. The last two weeks students will be comparing and contracting adventures, experiences, and characters in stories.

## Math

In math, we are learning about non-standard measurement and collecting data. We will also revisit sorting at the end of the school year. You can support your student by reviewing addition, subtraction, and 2D and 3D shapes.

## Writing

We are working on a Young Authors book about things they see in the sky. Students will write a short autobiography for their book. The books will be available at the graduation ceremony.

## Science/Social Studies

In science, we are conducting experiments, making observations, collecting data, and drawing conclusions. In social studies, we are sorting different kinds of food to learn to eat healthy. We are also discussing being good citizens.
