English Language Arts

This month students will compare and contrast two or more characters, settings, or events in a story or drama, drawing on specific details in the text. Also, students will be able to determine the theme of a poem.

Math

During the month of March students will generate two numerical patterns using two given rules. Identify apparent relationships between corresponding terms. Form ordered pairs consisting of corresponding terms from the two patterns, and graph the ordered pairs on a coordinate plane.

Writing

Students are learning the importance of paraphrasing.

Science/Social Studies

Students will recognize that a galaxy consists of gas, dust, and many stars, including any objects orbiting the stars. Students will also identify our home galaxy as the Milky Way.
