Conscious Discipline Encouragement

You can encourage kindness, helpfulness and compliance through noticing. What you notice, you will get more of. "You did it. You _____ so _____. That was helpful."
Notice your child's daily efforts of kindness and being helpful and you will see a lot more kindness and helpfulness.

What We are Learning

We learned about different types of buildings and how they are the same and different.

Looking Ahead

Next week we will learn about who builds buildings and what tools they use. Our vocabulary will include builder, brick layer, carpenter, electrician, plumber and hammer, saw, cement mixer, trowel, mallets, and screwdrivers.

Fun Things to Try at Home

Study your home with your child. How old is your home? Who built it? What are its dimensions?

Vroom Tip:

Silly Suds:

Get silly while getting clean. Tell your child, "Let's wash your hands!" but start washing their feet. What do they do? Then say, "Oh! Those are your feet! Where are your hands?" As they get older have them lead, using other parts of their body like elbows, wrists, and ankles.
