English Language Arts

We are now reviewing standards and this week is author's point of view. Students are reading a lot of books and taking AR tests! Ask your children about STAR testing and their AR goals 😊 and what books they chose to read this week.

Math

Students will be taking the FSA for Math this month. We are working on measurement with capacity and then will be going back and really hitting the power standards. Which are going to be fractions and word problems. Quiz your children on their multiplication facts!

Writing

In writing we are working on complete paragraphs with 3-5 sentences and each sentence having 7-10 words. Spelling, punctuation, sentence structure, and grammar we continue to work on as well. Please continue working with your student.

Science/Social Studies

In science we are learning about the Sun, Earth, and Space. We are learning about renewable and nonrenewable energy resources and their importance to our world. Students are having a blast in Science!
